

EMPOWERING INSPIRED BUSINESS DECISIONS

SUPPLY CHAIN TECHNOLOGY & CONSULTING EXPERTS

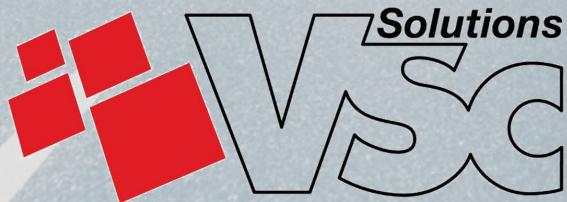

VSc Palm is a mobile handheld solution that provides electronic proof of delivery and mobile workflow. This eliminates the need for manual paper based processes by allowing for the confirmation of delivery at the physical service location. Event notifications such as in-geofence activity, product barcode scanning, GPS date-time stamps, process driven workflow and sign-on-glass provide instant updates on task statuses streamlining financial and operational processes.

Real time schedule updates | Two way communication | VOIP calls
GPRS and text messaging | Turn by turn navigation | Geofence mapping
| Step by step workflow | Proof of delivery | Signature on glass
Picture capturing

Benefits of VSc Palm

- Increased parcel visibility
- Improved customer service delivery
- Decreased lead time to payment
- Increased adherence to SLA
- Improved master data accuracy
- Improved adherence to route
- Reduced travelling time
- Improved adherence to H&S regulations
